

EDINBURGH ARTFUL LIVING

Jeffreys Interiors has meticulously reimaged the top two floors of a captivating south-facing Edinburgh townhouse, weaving an aesthetic tapestry of refined elegance and thoughtful design. The walls, ceilings, and doors have been unified into a single colour palette, providing a sophisticated backdrop that serves as a canvas for the client's extensive collection of artworks and makes the rooms pop. The most crucial change on the first floor was opening up the wall between the lounge and dining room, allowing guests to move from one to the other. The addition of carefully crafted doors introduces a layer of versatility to the living area, giving the clients flexibility to close off the space so the lounge becomes a cosy haven to nestle into once again.

This project was designed by Jeffreys Interiors and completed in 2023. Photography by Zac&Zac.
